EARLY BIRD REGISTRATION RUNS
 THROUGH AUGUST!

Setting the Stage: Canada's East Coast Energy Future

The Maritimes Energy Association is excited to present a brand-new Core Energy Program format this year! On Day 1 – Tuesday, October 2nd we are setting the Scotiabank stage at Neptune Theatre to collaborate with our partner the Offshore Energy Research Association to deliver deep dive discussions that will focus on key topics related to the changes in our industry and the long-term lower carbon emission energy transition. First Nations Duty to Consult, Innovative Technology, and Carbon Pricing/Cap and Trade are planned. Delegates will come away with knowledge they can use immediately to improve their business and plan for the future.

Day 2 – Wednesday, October 3rd will be held at Pier 21. It will be a best in class program filled with interactive dialogue on the ever-evolving energy industry in the Maritimes. It brings together over 200 decision makers and stakeholders to review the role of leadership, promotion and expansion while tackling the difficult issues at play in the energy market today. There will be lots of opportunity to interact with panelists and keynote speakers – to ask the questions important to your business interests and spark innovative thinking to drive success.

The 2018 Core Energy Conference will put the mark on the opportunity of future energy projects and how they will drive economic prosperity in the Maritimes. The next few pages will outline a number of unique sponsorship opportunities for you to consider this year – we look forward to helping you gain exposure and promote your brand at the 2018 Core Energy Conference!
